Amdt. dated April 24, 2006

REMARKS/ARGUMENTS

Restriction to one of the following inventions is required under 35 U.S.C.121:

- I. Claims 1-8 and 18-22, drawn to transferring based on examination process, classified in class 710, subclass 5.
- 5 II. Claims 9-17, drawn to mode selection based on examining process, classified in class 713, subclass 1.

The inventions are distinct, each from the other.

10 Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Response:

15 The applicant has consequently amended the claims in the above Amendments to the Claims section to elect the claims in Group I. Claims 1-8 and 18-22, drawn to a transferring method, are elected as the subject matter to be examined in the present application. Claims 9-17 are non-elected and therefore cancelled.

20 Furthermore, new claim 23 is drafted to specify parts of the computer system. These limitations are taken from the original claim 9, and now new matter is added through new claim 23. Acceptance of the claims is respectfully requested.
